

## **mailstation™, mailstation2™ (K700, K7M0) Operational Changes** **Effective April 17, 2011**

As a result of, and in addition, to the USPS Rate Change effective April 17, 2011, changes have been made that affect the operation of your product. Listed below are the changes. Please refer to [RC00320, the Summary of Changes document](#), for the complete list of classes whose prices have changed.

### **First-Class Mail Changes**

- **For Systems that Currently Contain Priority CBP and Express CBP (Commercial Base Pricing)**  
The USPS allows postage meters such as the mailstation to use discount Commercial Base Pricing because they generate an IBI (Information Based Indicia) and submit data electronically to the USPS. For more information, go to [Learn about IBI meters and CBP](#)

Another discount class has been added to your system. **1st Class Regular Parcel Retail** pricing has been replaced with **1st Class Regular Parcel CBP**. The required inscription, "First Class Mail ComBasPrice", will automatically print when this class is selected.

- **For Contract Postal Units (CPU's)**  
Contract Postal Units (CPU's) are unable to use Commercial Base Pricing (CBP). Machines at CPU's will receive the April 17th retail price changes only. There will be no operational changes as they will continue to use the Retail pricing.

### **Where to go for Help**

For more details on USPS services, contact your local Post Office.
